Bar Silver 29¾c

PRICE: FIVE CENTS A COPY. WALLACE, IDAHO, FRIDAY, JANUARY 16, 1931. VOL. 35, NO. 283.

OREGON LINK OF CUTOFF SOUGHT BY LEGISLATURE

Memorial Bill Passes House; Holden Defends New Primary Bill in Squabble.

BOISE, Jan. 15. (AP)—The Idaho legislature today completed action on a memorial asking that Oregon's share of the recently appropriated Colton-Oddie money be used to construct the Oregon link of the Idaho-Oregon-Nevada cut-off.

The bill was passed by the senate yesterday afternoon, put through the house today and dispatched to Secretary of Agriculture Hyde and the Governor of Oregon.

Senator Grebe, Ada county, sponsored the memorial, pointing out that the Oregon link of the road was the main unimproved section which extends from the Canadian line through Montana, Idaho, Oregon and Nevada to coast points.

A great saving in distance, both to north and south Idaho points and coast cities, was recited as reason for early construction.

The senate was in session only long enough to complete signing of the memorial and to hold up for amendment a bill to give the Nazarene college at Nampa the privilege of having out of state directors.

Upholds Bill.

Senator J. Wesley Holden, republican, Homeville, upheld the new primary bill before the senate as a measure to insure that their desires will not be thwarted "as it has been shown they would be under the convention system."

In an interview replying to attacks on the measure Holden declared it had been carefully worked out by six democrats and six republicans who signed the bill "and there was certainly no doubt in our minds what we meant to have in that bill."

Defending that part of the bill which provides for nomination of candidates before the platform is drawn up he said, "it is certainly an improvement over the present registration and convention system. Now the voter must swear at the time of registering that he will not only support his party in convention but will vote for candidates put up by that party. That is a violation of the constitution that the right of the voter to a secret ballot shall be protected."

He said that at the last election there was evidence that citizens either "did not know what their oath called for or else 50,000 of them cheerfully violated it in voting for Governor Ross after pledging republican allegiance."

Defends Provision.

He said the provision that nominees for state and congressional officers as well as legislative candidates and county chairman shall write the platform was an assurance that candidates would know what platform they were going to run on.

"Virtually every person who has anything to do with carrying out the party's platform is called on to assist in drawing it up. Certainly that is an improvement over the present system where a few party leaders are allowed to draft the platform. The entire legislative ticket is shut out of consideration."

Whether the bill would effect continuation of party interest depends on the extent to which the present registration law is amended, he stated. He said this law "insured party integrity even to the extent of violating the constitution."

"I was not fooled by the bill and I am certain that none of the other signers was," he concluded. "The bill may not be perfect in all respects but it provides for a direct primary and that is what my constituents want."

ACCIDENT BOARD PAYMENTS HIGH

BOISE, Jan. 15. (AP)—The industrial accident board directed payment of $1,675,976 to 16,521 claimants under the workmen's compensation law during the last biennium, the annual report disclosed today.

The awards included 126 death claims and injuries that resulted in the loss of 270,000 working days.

The lumber industry was charged with a major share of accidents, 4094, as compared with 2452 for mining. Shoshone county, where the mining industry is concentrated, led the list with 2625 accidents compared with 1724 in Ada county the second highest.

REDS FIRE ON STEAMERS.

HANKOW, Jan. 15. (AP)—Red battleries on the banks of the Yangtze river below Kiukiang, Hupeh province, today resumed their heavy cannon fire upon passing steamers.

SOUP GIVER DEAD.

CHICAGO, Jan. 15. (AP)—The man whom police say managed Al Capone's soup kitchen for the unemployed, is dead. Enrico Bertocchi was his name.

HOOVER APPROVES OF DROUGHT LOAN

WASHINGTON, Jan. 15. (AP)—President Hoover signed the much disputed drought loan appropriation bill today.

The $45,000,000 became immediately available. The machinery already has been set up for loaning it for feed, seed, fertilizer and farm machinery for putting in this year's crop.

PROHIBITION HAS ELEVENTH BIRTHDAY

Stormy Course During Its Life; Tumult Is Seen Ahead.

WASHINGTON, Jan. 1. (AP)—Eleven years old at midnight prohibition ended the first year of its second decade today with few prospects that its path would lead away from the tumult that has dogged its history.

Buffeted by foes and fought for by friends since January, 1920, when the Nebraska legislature became the 36th state to ratify the 18th amendment the law faced three early decisions which may affect the course of its future history. They were:

An early submission to President Hoover—possibly on prohibition's birthday—of the dry law report of the Wickersham law enforcement commission admittedly controversy-laden.

A brewing storm on capitol hill over the prohibition bureau's request for 500 additional dry agents and an added appropriation of more than $2,000,000.

Argument within a week in the supreme court over the ruling of Judge Clark in New Jersey holding the dry law invalid. Dry leaders tonight, although conceding few peaceful moments for prohibition in its 12 years, stood firm in the belief that the law would remain. "Despite imperfect observance and enforcement" said a statement tonight from the Woman's Christian Temperance Union, "prohibition already has increased the national purchasing power by six billion dollars a year."

List Five Benefits.

Listing five benefits of the law ranging from a reduction of poverty to the abolition of "Blue Monday" the W. C. T. U. asked "What did the saloon do in its 130 years?"

On the other side Henry H. Curan, president of the Association Against the Prohibition Amendment, stood on his recent prediction that 24 states now were ready to vote for repeal and that the necessary 12 more could be marshaled within two years after the question was submitted to the people. At the same time he listed gains in wet ranks from the recent congressional elections.

Prohibition Director Woodcock holds the belief he said that the new year will witness an increased enforcement leading to a complete suppression.

James M. Doran, commissioner of industrial alcohol, has sponsored the statement that this year and the next might see the crisis in opinion concerning the law and urged a move to uphold public morale until federal enforcement machinery is further perfected.

RECOMMENDS TRADE SCHOOLS FOR IDAHO

Senator Isaacson Says They Should Take Place Junior Colleges.

BOISE, Jan. 15. (AP)—If any new schools are established Senator J. M. Isaacson of Oneida county insists they should be trade schools and not junior colleges.

In an interview today he said he was convinced trade or occupational schools would be a more valuable asset to the state than junior colleges with the formal courses usually provided.

"There are hundreds of high school graduates who cannot afford to go on to college who would be able to take advantage of these occupational schools," he said, "through these they can receive trade and business courses which they can put to more immediate use than general educational courses.

"Moreover it would probably be of vast benefit to students who intended to go on to college to learn a trade first." He said the high school courses should be so arranged as to weed out certain unpractical subjects and substitute, particularly in the latter part of the high school, a series of trade courses.

Delegations have sponsored junior colleges at Rexburg, Boise and Coeur d'Alene at all of which places Senator Isaacson would place trade schools with two year courses instead.

TWO DIE IN CRASH.

MARSHALL, Mo., Jan. 15. (AP)—Two persons were killed and four others injured when two motor cars collided at a highway intersection near here last night. The dead are Mrs. Fred E. Gammill, 55, Hamilton, Mo., and Mrs. Margaret Johnson of St. Joseph.

COMMITTEE TO INVESTIGATE WIRE TAPPING

Expenditures Committee of House Adopts Motion of Representative Shafer.

WASHINGTON, Jan. 15. (AP)—Wire tapping by the prohibition bureau to obtain evidence is to be scrutinized by the house expenditures committee.

The committee adopted a motion by Representative Shafer (Rep., Wis.) an anti-prohibitionist, to that effect today. He had said the bureau was tapping wires in violation of state laws.

The first hearing Chairman Williamson announced will be held January 29. The committee proposed to call Attorney General Mitchell, Prohibition Director Woodcock and J. Edgar Hoover, director of the justice department investigation bureau.

Company Objects.

Shafer read to the committee portions of a letter from the Cincinnati and Suburban Bell Telephone company which said that last November the prohibition bureau had agreed to cease tapping wires but that since that time "three agents were apprehended as they attempted to listen in on private lines."

"The telephone company's protests seem to be of no avail." Shafer said.

The Cincinnati company, Shafer added, was "in an unhappy position" because the prohibition agents "insist on tapping wires while the state law subjects the offender to as much as three years in jail and a fine of $1000."

Quotes Testimony.

He quoted testimony of Woodcock, Mitchell and Hoover to show that although Hoover's department does not condone the practice it is the "policy" of the prohibition bureau.

"One branch of the justice department," Shafer explained, "says it is all right—the other fires a man for doing it."

When Woodcock was before the appropriations sub-committee last month Representative Pinkham (Rep., Mass.) asked if it had a policy permitting wire tapping.

Woodcock replied: "We do and the supreme court has approved the practice." Shafer attacked this assertion as a "misinterpretation." The ruling was not on the legality but on whether evidence obtained in that manner could be admitted in evidence.

PINE BLISTER WAR PLANS SUGGESTED

Annual Chamber of Commerce Hears Forestry Men.

BOISE, Jan. 15. (AP)—The Idaho state chamber of commerce opened its annual two-day convention today with this optimistic slogan on its program: "Idaho, the one bright spot on the economic map of the world."

Mayor James P. Pope, Boise, opened the convention with an address of welcome which was responded to by M. B. Yeaman, Idaho Falls, vice president. Other speakers included Ben Bush, Moscow, state forester; F. G. Miller, dean of the University of Idaho school of forestry; George F. Jewett, manager of the Rutledge Timber company, Coeur d'Alene; R. H. Rutledge, Ogden, Utah, district forester, and J. L. Driscoll, Boise.

Dean Miller said there is grave danger that unless white pine blister rust is stamped out of Idaho's forests it will destroy the richest stand in the world. Dean Miller and C. K. McHarg, Coeur d'Alene, district forester, both described the ravages of the disease which girdles white pine trees, causing them to die.

May Lose Payroll.

The state stands the chance of losing a major payroll in a very few years, Dean Miller said, unless it takes steps to eradicate blister rust. He added the state and forest service are pressing their requests for a federal government appropriation to be used with state and private funds to combat the disease.

Over a 10-year period he said $6,320,000 will be required. Of this amount $345,000 must be made available next year. The federal government is being asked to appropriate $200,000 for the forest service, $25,000 for the public domain, $80,000 for cooperation with state and private interests. The state is being asked for $29,000 and private interests the same amount.

"This may sound like a big sum," Dean Miller said, "yet the total 10-year appropriation represents less than half of the annual payroll from the lumber industry."

FIRE CHIEF DEAN QUITS HIS POST

CLEVELAND, Jan. 15. (AP)—The country's dean of fire chiefs, who hung on to his long picturesque career as a stiff fighter of smoke and flame as he would a stubborn blaze, had relinquished active command tonight.

George Wallace, 82, who missed only one big blaze and was off duty only 13 days because of illness in 62 years, handed his resignation in today.

CHELAN CONSPIRACY CASE IS UNDERWAY

Three Government Witnesses on Stand Yesterday.

SPOKANE, Jan. 15. (AP)—Three government witnesses in the so-called Chelan county liquor conspiracy case testified today that liquor peddlers paid money to operate in that county and that those who happened to be convicted got short jail sentences for the consideration.

The witnesses were Marcus Chapman, who said he was a whiskey dealer, and Hi Baker and W. J. Smith, former deputies under sheriff Peter Wheeler, one of the defendants. Nine men, including deputy sheriffs and alleged dealers and manufacturers, were indicted with Wheeler.

Chapman apparently, the government's principal witness, said he paid Sheriff Wheeler $150 to escape from serving a 90-day sentence.

Deputy Mcc Him.

He testified he started in the liquor business at the suggestion of Deputy Ralph Hand, a fugitive from justice in this case. Hand, the witness said, met him as he got off a freight train at Leavenworth and said: "You're foolish to go to work at the Cascade tunnel. See me at Wenatchee later.'"

"I saw Hand later," Chapman said, "and he told me there were a couple of men hauling booze and cutting into 'the old man's' business. He wanted me to order a load for Wenatchee so that he could 'knock them over' but I said I intended to enter the business myself and could pay my own way."

He quoted Hand as telling him there was a "good deal of money to be made by the right man" but most of the men he dealt with were drunkards and would pay protection for a month or two and then thinking they had something on the sheriff wouldn't pay any more.

Paid for Protection.

Hand, he testified, told him that of the $150 paid for protection "$100 goes to the old man and $50 to himself."

"Did he tell you who the 'old man' was?" Roy Fox, United States district attorney asked.

"Yes," Chapman replied, "Pete Wheeler."

Baker said he quit working for Wheeler because he was afraid the open liquor activities "would put the whole crowd in prison." He said Wheeler told him not to arrest anyone selling good whiskey."

Smith said Deputies George Strevel and Hand seized 1500 bottles of beer from Leonard Larson, drank some on the spot, found it good and took some home with them. When Larson was not tried Smith said he asked Wheeler why.

"Wheeler told me Larson's mother had helped him out in his campaign so he thought it no more than right that he should help Larson," Smith testified.

IDAHO SNOWFALL IS BELOW NORMAL

BOISE, Jan. 15. (AP)—Snow depths in Idaho are even less satisfactory this year than last, Clinton E. Norquist, United States weather bureau meteorologist, said here in a summary of conditions over the state.

Heavy snow fell in November but since then extremely cold weather has prevented precipitation so that it is now below normal for this time of year. Snow ranges from three to 48 inches in depth over the principal watersheds including Bear river, Lost river, Boise, Payette, Salmon, Weiser, Clearwater and the upper Columbia basin.

"Winter set in earlier than usual this year," he said, "but there has been a dearth of stormy weather. The snow cover at the close of December was generally less extensive than at the same date last year, and snow depths were mostly considerably less than normal."

F. EDSON WHITE KILLED BY FALL

CHICAGO, Jan. 15. (AP)—F. Edson White, 57, president of Armour and company, was killed tonight by a fall from a bedroom window at his North Side home.

The packer died by accident in the opinion of Coroner P. J. Dwyer and P. L. Reed, treasurer, of Armour and company.

Reed said he had been talking to White five minutes before the death. At that time White was on the sill "to get a little air" he explained to Reed.

He was alone in the room at the time of the fall.

LIVESTOCK IS STARVING FOR LACK OF FEED

Thousands of Mules and Cattle May Die; 5000 Families Being Fed in Kentucky.

WASHINGTON, Jan. 15. (AP)—Word that thousands of mules and cattle would die of starvation in Arkansas unless feed is furnished at once came today to the Red Cross.

In making public information telegraphed by Dr. William DeKleine from Arkansas, the Red Cross said the final enactment of the feed and seed loan measure came at an opportune time.

DeKleine, national medical director of the organization, was sent into the drought states to report conditions there.

"The feed situation for animals is even more critical than for humans," he said.

All but nine of the 75 counties of Arkansas and one-third the area of Kentucky were said to be receiving food from the Red Cross.

Were Hardest Hit.

These two states were hardest hit but the distress had extended to 383 counties in 21 states.

Fearing increasing illness with winter weather Judge John Barton Payne, head of the Red Cross, dispatched the national medical director to Arkansas first, with instructions to go into all the other critical drought centers as rapidly as posible.

From Kentucky a Red Cross field worker wired "Bitter cold intensified suffering in Kentucky mountains and those in small towns made dependent by drought situation.

"Several hundred drought sufferers, including farm wives with children looked to relief headquarters yesterday reporting they had sold their last few chickens or stock and after helping out their neighbors all came together to the Red Cross."

Estimates were that 5000 families or about 24,530 persons were being fed in Kentucky.

STAR WITNESS IS STABBING VICTIM

Unidentified Assailant Attacks Mrs. H. Howard at Portland Home.

PORTLAND, Jan. 15. (AP)—Exclaiming "I'll get you this time," an unidentified assailant made an attempt today to kill Mrs. H. W. Howard, principal state's witness in the unsolved death of Mrs. Leon Bowles. The assailant escaped after wounding Mrs. Howard critically.

The attack was made by a man who evidently had waited for her at her home. He stabbed her twice above the heart, slashed he across the face and struck her with a blunt instrument. As she stepped onto her back porch to get some wood the man leaped on her.

Her screams aroused neighbors. Mrs. E. Benchley and Mrs. George A. Robson ran to the woman's assistance and found her lying nearly unconscious.

Lost Consciousness.

"Get that man away—get that man away," Mrs. Howard screamed before she lost consciousness. The attack was the second made on Mrs. Howard. On December 2 an unidentified man visited her home and threatened to slay her if she testified in the case of Nelson Bowles, Portland capitalist, and his former secretary, Irma G. Loucks, who are charged with the murder of Mrs. Bowles. Mrs. Bowles died from a wound inflicted by a butcher knife while she was in Mrs Loucks' apartment last November.

On the occasion of the first attack, the man beat Mrs. Howard severely and escaped before her cries brought assistance.

A few minutes before today's assault a strange light grey automobile drove past her residence. Mrs. Elizabeth Steinbauer told police she saw the automobile.

Mrs. Howard is 56 years old. Police said she would be questioned tomorrow if her condition permitted. She was said to have important information for the state in the death case. Mrs. Bowles died from the wound and both her husband and Mrs. Loucks said she had committed suicide.

FAVOR MODIFICATION.

MIAMI, Fla., Jan. 15. (AP)—The Miami Herald today reported sanction of the executive council of the American Federation of Labor for the establishment of Washington headquarters by labor's legislative committee for modification of the Volstead act.

IDAHO PRESIDENT DEFENDS FOOTBALL

MOSCOW, Jan. 15. (AP)—Dr. M. G. Neale, president of the University of Idaho, defended intercollegiate football tonight, saying it was an institution about which student loyalty is formed.

He spoke at a banquet in honor of the Vandal football squad which had just returned from Honolulu.

MISS DEBOE WILL TESTIFY TOMORROW

Secretary of Titian-Haired Actress to Take Stand in Defense.

LOS ANGELES, Jan. 15. (AP)—With but a handful of spectators present in contrast to the crowd that had packed the court room the past two days, the trial of Daisie DeBoe, erstwhile secretary of Clara Bow, film star, on charges of grand theft continued today with a district attorney's auditor on the stand.

The witness, George Armstrong, identified 144 individual checks drawn by Miss DeBoe against Miss Bow's account allegedly without the flaming-haired actress' consent.

Before Armstrong took the stand, Blaney Matthews, chief investigator for the district attorney's office, was called in and provided the spectators with some entertainment. He said a large batch of love letters received by Miss Bow had been found in possession of Alfred Mathes, a friend of Miss DeBoe. Jewelry belonging to the actress likewise had been found in his possession, Matthews said.

Say Case Uninteresting.

Some of the spectators said today the case was uninteresting but Rex Bell, Clara's latest "boy friend," who was present throughout the morning and afternoon sessions said he was intensly interested. He said he was present as a reporter for Miss Bow who did not put in an appearance. He said she probably will be in court tomorrow just to hear what Miss DeBoe has to say in her own defense. Miss DeBoe, one the other hand, spent the day taking notes. She said the notes pertain to many things but mostly to the testimony she will give when she takes the stand tomorrow.

During the early part of today's session Margaret Fairchild, investigator for the district attorney, was called as a witness and testified concerning a 30-page alleged confession made by Miss DeBoe before her arrest. She said Miss DeBoe was shown every consideration and made her statement freely and voluntarily. Checks identified by Armstrong totaled $46,845.12. The largest was for $750 and the smallest for $12.

Notations carried such information as "$3 I loaned Clara," "$5.20 I owed Clara for gas," "$9.75 for makeup that Clara owes me." The state charges that Miss DeBoe converted $16,000 of her employer's money to her own use.

HEAR ANOTHER PLAN FOR CONSOLIDATION

Would Combine Financial Commissioners Into One Office.

BOISE, Jan. 15. (AP)—In a prepared statement supporting the bill before the house proposing to consolidate the office of commissioner of public investment with that of commissioner of finance, Representative Frank Turner of Madison county said today it would save $13,700 each biennium.

Besides eliminating one commissioner with a saving of $7200 for the biennium, Representative Turner estimated that at least one office man and a field man could be eliminated.

The services of both officers are parallel to some degree, he said, for both are required to make close studies of the securities market, the finance commissioner to insure that banks hold proper securities for their deposits and the investments commissioner to make profitbale investment of the public endowment fund.

Recommends Increase.

He recommended an increase in the salary of the commissioner to not less than $5000 a year.

An attack on the Idaho potato grading law may be launched this session led by members of the Twin Falls delegation of the legislature. Members of the delegation expressed opposition to the measure principally on the ground it prevented a shipment of a "commercial" grade of potatoes popular in the southern

These brands include all grades of potatoes with the potatoes thrown out. Under ent regulations only potatoes as No. 1 and 2 and culls n shipped.

It was contended by membe the Twin Falls group that this stricted the trade to diners and fa restaurants to such an extent th other states had stepped in and take the trade where "commercial" would be saleable.

SAYS ENGLAND TO BLAME FOR SILVER DECLINE

Dumping of Indian Silver Coins as Bullion Must be Stopped, Senator Pittman Says.

WASHINGTON, Jan. 15. (AP)—Senator Pittman (Dem., Nev.) today blamed the fall in silver prices on what he said was Great Britain's policy of dumping Indian silver on the world market.

Pittman, chairman of a foreign relations sub-committee engaged in studying the silver decline, said its report would recommend an effort to have Great Britain suspend such activities.

Senator Pittman announced he had abandoned his plan for further hearings and has started drafting its report which he hopes to submit before February 1.

He had planned to call four internationally known financiers but has decided instead to ask them for written opinions. They are Owen D. Young, Thomas W. Lamont, Norman Davis and Bernard M. Baruch.

Nothing Antagonistic.

Pittman said he saw nothing antagonistic toward the committee's program in the recent statement by Finance Minister T. V. Soong of China that China was unwilling to accept a silver loan and that it was an attempt by American silver interests to dump their surplus in China.

"One might be led to believe," Pittman said, "that China did not need or was unwilling to accept a loan under the conditions proposed.

"The material statement was that what China was mostly interested in was action that would stop the steady drop in prices of silver and restore its purchasing power.

"I thoroughly agree with him. As long as the threat under the British policy in India exists speculators in China and everywhere will continue to short the market and sell silver, adding to the depression.

Blames Great Britain.

"As a matter of fact the recent sudden fall in silver was due to selling of silver by speculators in China but they sold because they knew there was no hope for silver until the British government for India would announce a suspension of the policy of selling its hundreds of millions of silver coins as bullion.

"China wouldn't want to borrow at 65 cents an ounce then have the price drop to 15. First the cause of the drop will continue to cause the price to decline must be removed. Then the other nations must negotiate with China to restore it.

"Soong is wrong about the desire of American silver interests to dump their silver in China. There is no mine surplus here. Every month all silver mined is sold. He is right in the conclusion that the international silver conference is trying to help the price of silver. That is what we all want to do."

Pittman explained that the report would recommend: First, negotiations to suspend the British policy in India; second, a silver loan to China, and third, as a long range program, an international conference to study the future use of silver as money and its exchange values.

SUGGESTS POWER TAX FOR IDAHO

BOISE, Jan. 15. (AP)—Barilla W. Clark, mayor of Idaho Falls, today was supporting a plan to have the Idaho legislature tax power developed in Idaho for use in other states.

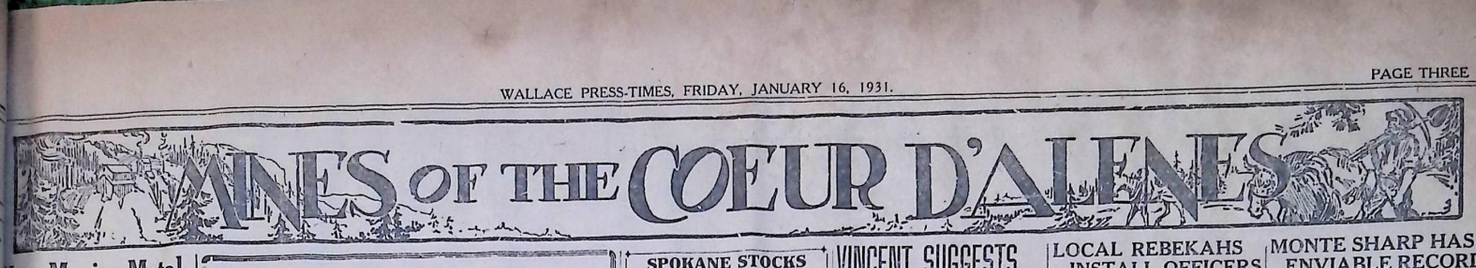
In an interview on his arrival here, Mayor Clark declared a tax of one-fourth of a cent per kilowatt on power developed in eastern Idaho and transmitted mainly to Utah would bring the state three and a half million dollars a year.

"Natural power from Idaho runs 90 per cent of Utah's electrical equipment," he said. "Experience with the city owned power plants in Idaho Falls has revealed that existing power rates bring 8½ per cent profit.

He urged this tax be applied instead of a sales tax because it would bring revenue for the state of its own resources, now other states.

He said he could amount of revenue bring from porting

MINES OF THE COEUR D'ALENES



New Mexico Metal Output Decreases

Declines Srown in Gold, Silver, Copper and Zinc, Bureau of Mines Reports.

Eleven months actual mine production with an estimate by the mine operators for December indicates that the output of gold, silver, copper, lead and zinc from New Mexico ores and gravels in 1930 in terms of recovered and estimated recoverable metal was 31,556 ounces of gold, 3,991,000 ounces of silver, 20,357,000 pounds of lead, 67,700,000 pounds of copper, and 68,277,999 pounds of zinc, according to Charles W. Henderson, United States bureau of mines, department of commerce.

These figures are to be compared with a production in 1929 of 35,176.5 ounces of gold, 1,121,546 ounces of silver, 22,260,811 pounds of lead, 97,172.62 pounds of copper and 68,910,-000 pounds of zinc, and show decreases of 3,620.5 ounces (874,842) in gold, 30,546 ounces of silver, 1,393,811 pounds of lead, 29,827,262 pounds of copper and 633,000 pounds of zinc.

The gross value of the New Mexico metal production at average yearly prices of $20.67 per ounce of gold, $0.355 per ounce of silver, $0.052 per pound of lead, $0.124 per pound of copper, and $0.047 per pound of zinc in 1930 was sold $652,320, silver $20,035, lead $1,085,084, copper $5,405,960, and zinc $3,209,919, with a total of $13,172,418, as compared with $24,472,675 in 1929, a decrease for 1930 of 10,701,257, or 44 per cent.

In quantity, zinc surpassed the output of copper, but in value copper continued to be the most important metal produced in New Mexico. The large low-grade porphyry copper deposit of the Chino Mines of the New Mexico Consolidated Copper Co., at Santa Rita, was mined at approximately 6,500 tons daily, as compared with 10,886 tons in 1929. The deposit is mined by open pit methods, using steam and electric shovels, and the ore is concentrated at the company's concentration mill, at Hurley.

Financial Briefs

Furnished by Pennaluna & Co.

Arthur Cutten purchases seat on Winnipeg grain exchange for $12,000.

Canadian wheat stocks at all points total 213,395,815 bushels against 217,-098,851 week ago and 227,032,671 last year.

Western Maryland first week in January gross $268,568 against $303,-613 in like week in 1930.

Bank of England statement as of January 15 shows circulation 349,-142,000 pounds against 363,504,000 pounds on January 8, ratio 45.5 per cent against 47.3 per cent, and bullion 145,150,000 pounds against 146,-357,000 pounds.

General Motors December retail sales in United States was 57,589 cars and trucks against 4,757 in November and 44,216 in December, 1929. For 12 months 1,057,710 against 1,498,792. Total sales to dealers here 1,174,115 against 1,899,257. Dealers stocks decreased 22,050 cars and trucks during year.

Western Union Telegraph 1930 net with December estimated about $9.10 a share against $15.11 a share in 1929.

National Steel corporation and subsidiaries in nine months ended December 30 net profit $7,353,579 after depreciation, depletion, interest and federal taxes.

American Hide and Leather 24 weeks ended December 31, loss $532,-457 after depreciation, interest and reserve for taxes and special reserve set up for re-valuation of inventories, securities owned, etc., against net profit of $295,437 in like 1929 period.

North American Aviation, including income of wholly owned companies, nine months ended September 30 net 75 cents a share on 2,100,000 shares against 91 cents a share on 2,000,000 shares in first nine months of 1929.

Brazilian Power, Light and Power company, Ltd., declared a dividend of two per cent on common stock, payable to stockholders of record January 31. Three months ago a similar stock dividend was declared.

Colonel Ayres of Cleveland Trust company says common stock appear to be selling at bargain prices.

National Dairy Products corporation has purchased Chase Dairy Products company of Washington, D. C.

Borden company acquires ice cream business of Elgin Baking and Ice Cream company of Elgin, Ill., in exchange for 1,617 shares of stock and $44,000 in cash.

C. A. Stimson and company, Ltd., Canadian bond house, and its four subsidiaries placed in hands of liquidator.

North American company and subsidiaries to spend $51,000,000 for additions to plans and systems in 1931.

INSPECT INFIRMARY.

The three members of the board of county commissioners ate lunch at the County Infirmary Thursday noon and during the afternoon inspected the infirmary and the isolation hospital which is being remodeled into a Memorial building for the Veterans of Foreign Wars and other similar organizations.

The Louisiana Firemen's association has voted to establish a state fire college at Baton Rouge, with practical and theoretical courses in fire fighting.

NEW YORK, Jan. 15. (AP)—The stock market today overstepped the boundaries of the narrow trading area in which it had been aimlessly maneuvering and dropped to the lowest level since December 31.

Declines were largest in the prominent shares so that the index for 90 issues was pulled down 2.9 points, the largest recession so far in 1931.

Heaviness characterized the day's trading from the start. A few ralls made headway in the morning but this met no response and the market thereafter dropped. Activity increased toward the close when some fair sized blocks were sold. Sales of 1,932,-990 shares were more than 600,000 above yesterday's turnover.

Professional bears, finding the support so mediocre supplied much of the selling which at times was directed against relatively few stocks although it became more inclusive in the afternoon.

SPOKANE STOCKS

TONE IS BETTER ON MINING MART

Slightly improved tone was noted on the Standard Stock exchange at Spokane Thursday, with eight issues making gains, while only five dropped lower.

Bunker Hill dropped $2 to lead the decline, while Hecla was 25 cents lower. Callahan eased off five cents. Sunshine, on the strength of a rise in silver, was two cents higher, while Pend Oreille Mines gained 10 cents.

Sales totaled 8450 shares.

'BORDER LEGION' NOW AT GRAND

"The Border Legion," Zane Grey's thrilling story of romance and outlawry in the early days of the West, has been brought to the talking screen as one of the most outstanding spectacular action dramas so far filmed with dialog. It is another of the master outdoor talking pictures which Paramount initiated with the production of "The Virginian."

In addition to Richard Arlen and Fay Wray, in the leading romantic roles, "The Border Legion," which will open its two day dun at the Grand theatre Friday, has the familiar and popular figure of Jack Holt, playing in his first talking Zane Grey role, in the cast. Fay Wray, seen recently as the gorgeous senorita of Gary Cooper's "The Texan," has the only woman role of importance in the picture. Eugene Pallette, famous as the Sergeant Heath of the S. S. Van Dine thrillers, has a role similar to the one he portrayed in "The Virginian."

BURKE

The Burke Study club will meet at the home of Mrs. W. A. Scheideman in the Hercules apartments Monday evening at 7:30 o'clock.

Mrs. Amy Curneen of Grass Valley, Calif., arrived here recently for a visit at the home of her brother-in-law and sister, Mr. and Mrs. Loy Vose.

The Campfire Girls will hold their regular meeting at the Burke school Saturday.

The Burke W. B. A. members held a business meeting at the home of Mrs. G. N. Osborne Wednesday evening.

Joseph Grismer and son, Ray, of Wallace were Burke visitors Wednesday.

Mr. and Mrs. H. J. Fisher and children motored to Kellogg Wednesday.

Mr. and Mrs. Henry Ruffler motored to Wallace Tuesday.

H. P. Whitney transacted business in Wallace Wednesday.

Charlie Truitt went to Wallace Wednesday to visit his mother who is ill at a hospital there.

Oscar Lantor, local merchant, was a business caller in Wallace Wednesday.

Loy Vose of Hurtubise and Vose company was a Wallace caller Wednesday.

Mrs. G. H. Johnson attended to business matters in Wallace Wednesday.

Rector Jaggard of Wallace visited in Burke Wednesday.

MULLAN COUPLE WED.

Frank Ollila, 40, and Mrs. Hilma Nahkala, 44, both of Mullan, who obtained a marriage license from the county auditor Thursday morning were married by Paul Batzle, probate judge. Witnesses were Miss Anne Foster and Eugene Thomas. The ceremony was the first performed by Judge Batzle since taking office Monday.

THREE AERIALS STOP FADING.

NEW YORK (AP)—Fading no longer is a serious menace to radio communication. To overcome this evil, three aerials are used, leading to a central receiver.

VINCENT SUGGESTS MODERNIZED METHOD

BOISE, Jan. 15. (AP)—W. D. Vincent, commissioner of education, placed a program of modernized methods of education and administration before the education committee of the house today.

Appearing as a representative of the board of education, he outlined several projects which had been discussed by the board or had been suggested by the Idaho Education association during recent annual meetings.

Outstanding were two proposals which he said should be enacted together, or not at all. One would require all districts to support at least eight months of school per year, and the other would help poorer districts finance the increased schooling.

Numbers of smaller districts in Idaho are unable to support more than six or seven months of school annually, he said, with the result that students in these districts are handicapped in competition with students from districts with larger purses.

Suggests Fund.

An equalization fund should be raised by the state by some means which would be distributed more largely to the poorer districts than the rich ones.

Other legislative possibilities suggested to the committee were: A bill permitting counties to finance adult education as well as illiteracy classes; a bill fixing maximum tuition at $5 when students transfer from one district to another; a bill authorizing districts to support bus lines for high schools in addition to the present allowance for grade school busses; a measure to permit county-wide purchasing of supplies for the school districts, and a bill to facilitate consolidation of districts by permitting the individual districts to keep their own bonded indebtedness.

K. C.'S PLAN FOR PRE-LENTEN PARTY

Plans for a special pre-Lenten party to be held in the Moose hall, February 5, were discussed at the meeting of the Knights of Columbus lodge Thursday night. The program will be featured by special entertainment from the Kellogg division of the K. C. council 1293, which will be combined with the entertainment from the local lodge.

It was also decided to sponsor a baseball team in the Wallace Twilight league next summer. Joseph Gallipeau, chairman. Edward Murphy, William Romischer, Pete Brouelette and Lee Teufel were named on the baseball committee.

An informal program and refreshments closed the meeting.

TEACHER TO BE MARRIED SOON

Miss Ruth Lang, fifth grade teacher in the public school for the last three years, who recently resigned to get married, was the guest of honor at a towel shower at the home of Mrs. A. W. Hoover Thursday night. Mrs. Will J. Jones was the assisting hostess.

Miss Lang, who will leave Saturday for Reardon, Wash., to spend a couple of weeks at the home of her parents, has been honored at several parties recently. Among those who have entertained for her are Miss Edith Brebner, Miss Edna Graham, and the Misses Estelle Furey, Agnes Weed, Harriet Morrison and Mary Lay.

Miss Lang is as yet undecided whether she will be married to W. B. Hines, Glasgow, Mont., farmer, in Reardon, Wash., or at Glasgow.

MULLAN

C. Gipson, Seattle, transacted business here Thursday afternoon.

Chris Rehoit, Worley, formerly of Mullan, was greeted with friends here Wednesday.

Wendell McEachron was a Wallace business visitor Thursday.

P. S. Scobee, Spokane, spent several hours in Mullan Thursday on business.

Mr. and Mrs. A. Fisher of New York City are guests at the home of Mr. and Mrs. P. A. Gipson.

Z. Coleman of Spokane was a Mullan business caller Thursday afternoon.

Mr. and Mrs. Jack Leonard motored to Wallace Thursday to visit with friends.

Miss Mary Doyle, who has been visiting here for several days, left Thursday for her home at Trail, B. C.

John Cramer, Spokane, spent several hours here Thursday transacting business.

Mel Ingram, coach of the Wallace high school, was in Mullan Wednesday evening.

YEARS LOOSEN PURSE STRINGS OF CONGRESS

WASHINGTON. (AP) — Congress wasn't as eager about 36 years ago to lift the economic balance of the nation as it is now.

As against the $311,000,000 authorized by the present congress for emergency relief, a bill introduced in 1894 read:

"To appropriate $6,300,000 for immediate use in relieving wants and destitution but not to exceed in any state $1 for every ten inhabitants."

This bill was pickled in committee because it was considered "a raid on the treasury."

LOCAL REBEKAHS INSTALL OFFICERS

Officers of the Rebekah lodge were installed at a meeting of the I. O. O. F. hall Thursday night. An entertainment and lunch followed the installation.

The officers are:

Mrs. May Morris, noble grand; Miss Beth Bascome, vice grand; Miss Esther Conard, secretary; Mrs. Mildred Hess, treasurer; Mrs. Ella James, R. S. N. G.; Mrs. Helen Scott, L. S. N. G.; Mrs. Catherine Olson, R. S. V. G.; Mrs. Carrie Porter, L. S. V. G.; Miss Maude Oylear, warden; Mrs. Amanda Anderson, conductor; Mrs. Anna Nordquist, inside guardian; Adolph Haupt, outside guardian; Mrs. Ada Murley, chaplain; Mrs. Esther Kieffer, musician.

SCOUTS PREPARE FOR RALLY

Troop 3 of the Wallace Boy Scouts met Thursday evening at the high school gymnasium and practiced problems which will be presented to the troops at the Scout rally January 22 Clarke Smith was in charge, acting for Frank McKeown, scoutmaster, who attended the amateur fight card in Kellogg. H. S. Hepner, deputy Scout commissioner attended the meeting.

MRS. BAKER SECRETARY.

Mrs. Noel I. Baker was appointed secretary to take the place of Mrs. Loren King, resigned, and plans for a social meeting to be held at the home of Mrs. C. H. Feilberg, January 22, were discussed at the Ladies Benevolent Society meeting Thursday afternoon. Mrs. E. P. Kribs will be the assisting hostess.

BROKEN SHOULDER.

Lester Albans, sixth grade student in the Wallace school, suffered a broken left shoulder when he fell while en route to school recently.

MONTE SHARP HAS ENVIABLE RECORD

Monte Sharp, former part owner of the Mullan Transportation company and now chief pilot for the Air Ferries, Ltd., has rolled up a total of 16,000 passengers flown over the transbay route between San Francisco and Oakland during the 10 months ending November 1, 1930, according to word received here.

This is believed to be an all time record for number of passengers carried over any air line by one pilot. Sharp made a total of 2800 trips flying more than 37,000 miles. He has been flying for more than four years.
